Summary

Computer Science undergraduate with interests in Software Engineering and Data Analytics. Passionate about building scalable applications, solving real-world problems, and deriving insights from data.

Education

Amrita University, Coimbatore - B.Tech in Computer Science	Jul 2023 - Jul 2027
CGPA: 6.99	(Expected)
SSVM - Higher Secondary Certificate	Jun 2021 - Apr 2022
Score: 93.33%	

Experience

STAXTECH — Frontend Intern	Dec 2025 Live
- Developed a fully responsive portfolio website using HTML, CSS, JavaScript, and React, ensuring compatibility across mobile, tablet, and desktop devices. - Built reusable UI components and applied mobile-first design principles across multiple pages, improving responsiveness and layout consistency.	

Projects

LinguaAble – Language Coach <i>React.js, Node.js, MongoDB, Flutter, REST APIs</i>	GitHub Live
- Engineered an inclusive language learning platform with AI-powered personalization, integrating chatbot assistance and speech-based evaluation. - Introduced accessibility-focused features including adaptive UI modes, learning analytics dashboards, and cross-platform support.	
Secure Assignment System <i>MongoDB, Express.js, React.js, Node.js</i>	GitHub Live
- Built a role-based assignment platform supporting Admin, Teacher, and Student workflows with JWT authentication and two-factor authentication (2FA). - Integrated AES-256 encrypted storage with data integrity checks, securing uploaded files and preventing unauthorized access and tampering.	
FX Decision Recommendation System <i>Python, Flask, React.js, Pandas, Prophet</i>	GitHub Live
- Developed a financial analytics system leveraging time-series forecasting and statistical risk modeling to analyze FX trends and generate actionable insights for importers and exporters. - Designed a recommendation engine combining volatility analysis, Z-score anomaly detection, and forecasting to support FX decision-making.	

Technical Skills

Programming Languages: Java, Python, JavaScript, C
Frontend: React.js, HTML5, CSS3, Responsive Web Design
Backend: Node.js, Express.js, Flask, REST APIs
Databases: MongoDB, SQL
Developer Tools: Git, GitHub, VS Code, Postman
Domains: Full-Stack Development, Data Analytics, Business Analytics

Certifications

Google Data Analytics Professional Certificate - Coursera
OCI GenAI Professional - Oracle
